

Frank Hornberg Chapter

In March, members from the UWSP Fly Fishing Club along with the Frank Hornberg Chapter taught 7 girls from the Wisconsin Rapids Scouts BSA Chapter 9118 how to tie a zebra midge and a woolly bugger. This was requirement to earn their flyfishing merit badge. Members from the UW Stevens Point Flyfishing Club along with members of the Frank Hornberg Chapter helped them through the process. Special thanks to Craig at Fall Line Outfitters in Stevens Point for hosting the event.

When we can get back together safely, we want to work on the Tomorrow River above Lake Meyers Road. Several down trees are obstructing the flow of the river. Check our website or Facebook for upcoming details.

Please get out and support our local fly shop- **Fall Line Outfitters** in Stevens Point. The economy has had a tough time the last couple months and we need a fly shop in our community. Let Craig know we care!

Heidi Oberstadt (Hoffman) teaches a BSA Scout how to tie her first fly.
